

To Whom It May Concern,

This letter is in regards to my participation in the Corporate Turnaround program. In 2015, my outstanding debt with my business was getting the best of me. I was always paying my bills late, which in turn gave me more late fees.

Every month when I reviewed my statements, the interest rate and fees were compiling and the amount due was never changing. I was also incurring many overdraft fees with my bank. The time it was taking me to "cover the check" and the stress of the juggle was getting too much!

My family and my business were suffering because I was not there for them, mentally or physically.

I began searching for assistance with the credit card companies. I do not believe in Bankruptcy, I want to pay my bills, but the interest and fees were over kill. In my search, I found Corporate Turnaround.

From the beginning, they were very clear on their program and allowed my many questions to help me out!

They set up a program to help renegotiate the debt and put in into convenient monthly payments. After spending a few short hours setting everything up, the rest was in their hands.

Even though there still is a monthly payment, I am able to see the end of the debt sooner than I ever imagined.

I can now work towards an achievable goal!

I appreciate all that they have done for my business and my family!

Your company's results may vary. Every restructuring has a unique combination of issues and factors, including the length of participation in the program. All of these variables affect individual outcomes. There are no "typical" results. Consult with a licensed attorney regarding the applicability of bankruptcy.
