

To Whom It May Concern:

In the fall of 2008 I was contemplating what my retirement would like when I finally retired in about 12 years. Then I came of up with the great idea of starting a barbecue restaurant in a very small town and work to get a clientele built up and payoff some of the expenses associated with the startup of the business, then I would be have a successful business to depend on when that day finally came. Sounds like a great plan doesn't it? Well it did at the time until the big economic downturn arrived and thousands of people lost their jobs as well as their homes and other necessities that life requires. So most people cut costs by not eating out. I quickly learned that if you don't get customers to come to your restaurant you don't have the income necessary to pay off all those startup costs. Next thing I know I was over \$58,000 in debt with nowhere to go. I used all of my savings and retirement savings to keep things going until business picked up. But all that did was put me further into debt with no way out except bankruptcy and my retirement plans up in smoke. I called several debt consolidation companies but all of the answers were all the same, we cannot help you. Then I stumbled onto Corporate Turnaround. And with the help and persistence of Sharon [REDACTED] and Anthony [REDACTED] the creditors stopped calling and all of my outstanding accounts were settled. So at the completion of this program I can comfortably state that my business has room to grow and I will be able to retire someday to that profitable stable business that I had planned on all along. Thank you Corporate Turnaround I would not be here today without your help.

Sincerely,

[REDACTED]
Owner

Your company's results may vary. Every restructuring has a unique combination of issues and factors, including the length of participation in the program. All of these variables affect individual outcomes. There are no "typical" results. Consult with a licensed attorney regarding the applicability of bankruptcy. Until a debt is resolved, creditors may continue with their collection efforts, including phone calls and legal action. CT does not provide any legal services or legal advice. There are no time limits for reaching settlements. Some creditors may settle after CT's first set of offers, and others may be resolved later on.
