

April 2016

To Whom It May Concern,

Way back early part of 2012, I was at wit's end. My credit card debt was getting out of control mainly due to the steady increase in fuel cost and the economy. We were trying very hard to avoid filing for bankruptcy. We refinanced our home and rolled some of debt into the mortgage, but that didn't even help. I could no longer keep up with the payments. I felt like I was drowning. I would pay, and pay, and pay but my balances wouldn't really go anywhere. Something had to change.

I started searching the internet for help and I stumbled across Corporate Turnaround. I looked them up on the BBB and they had an outstanding A+ rating! I thought that was real neat. I went on their website and read about what they could offer, and was impressed with what I saw. They had a little bit of everything on there. I read through a bunch of testimonials and learned that most of their clients were JUST LIKE ME! Good people that wanted to do the right thing that just had a run of bad luck. This sounded like the right fit for me.

I filled out an application on line and got a phone call from a gentleman named Raffi shortly thereafter. Raffi was great. Very professional and very detailed. I liked him. He got us started and set up the account. I was then assigned Adam [REDACTED] as my Client Advocate and away we went. Adam was AWESOME and helped me through the entire process from beginning to end. He always explained everything to me and helped me understand CVT's approach. Adam was a life saver. We need more people in the world like Adam [REDACTED]!

Roughly 4 years later and I finally made my final payment. I somehow paid off 170k in credit card and loan debt. This was debt with a very high interest too. CT even managed to cut the debt in half to boot! They are like miracle workers or something.

THANKS to all at Corporate Turnaround, with a special thanks to Raffi---- and a HUGE thank you to Adam [REDACTED]!!!! THANK YOU THANK YOU THANK YOU

Sincerely,

Your company's results may vary. Every restructuring has a unique combination of issues and factors, including the length of participation in the program. All of these variables affect individual outcomes. There are no "typical" results. There are no time limits for reaching settlements. Some creditors may settle after CT's first set of offers, and others may be resolved later on. Debts may increase until a resolution is reached. Settlement offers range from pennies on the dollar to payment in full. There is no guarantee of savings. Consult with a licensed attorney regarding the applicability of bankruptcy.
