

December 29, 2016

Dear Sirs,

Corporate Turnaround is what they say they are, and more. How can a web site or online search relay this to you? It is not possible. If you are living in this financial turmoil, please listen to and read what I am saying here. I have lived what you are going through and made it out the other side. I sat at the kitchen table at 3 AM, seeing no resolution, finding no one to help me, reading and searching for a way to honor my debt. Then by the Grace of God I saw Corporate Turnaround's web site. No way this could be true. I was searching online for bankruptcy lawyers. But here was another way. A better way. The partner I needed so I could continue with my specialty, while they handled the hard nasty work. I called and listened, like anyone doubtful and not trusting. I needed this, they were reassuring and factual. I was desperate and at all angles they seemed to be THE ANSWER. I jumped on board.

I have just described the hard part. If you are at the crossroads I have just described, you are traveling one unpleasant road. If you sign up and let CT handle your debt business, they will lead you back to the paved road. You will find if you follow their directions that they will resolve your issues with professionalism and tact. Take it from me, I made it out of that nightmare.

I have read a few years of testimonials. People at wits end. I only saw one that seemed worse than mine. They resolved approximately 330K of debt. My business dropped from 100 employees with 4.5 million in revenue, to 4 employees with 450K in revenue. But I made it. One friend at that time said, "The current definition of success is survival". I survived thanks to my friends, Scott [REDACTED], that started me off, and Adam [REDACTED], that ran the final legs that took a few years. I want to thank their behind the scenes staff, and I want to thank the owners of CT. You all have done a great job. You are good at what you do!

Your company's results may vary. Every restructuring has a unique combination of issues and factors, including the length of participation in the program. All of these variables affect individual outcomes. There are no "typical" results. There are no time limits for reaching settlements. Some creditors may settle after CT's first set of offers, and others may be resolved later on. Settlement offers range from pennies on the dollar to payment in full. There is no guarantee of savings.
