

March 21, 2013

Dear Corporate Turnaround;

Thanks so much for all your help in alleviating an outstanding amount of debt for our company. We are a very small season business that experienced very goods years in the past and with the economy had a very sharp decrease in jobs. I wanted to let others know how easy, pleasant and realistic a program you oversee.

Our company was really struggling to stay in business with the poor economy over the last few years. We had so much debt, that in the off season, we were unable to pay our bills. We then found Corporate Turnaround and [REDACTED]. They are so easy to talk to and willing to assist you in any way they can, so that you are able to remain in business. We started out a little over three years ago with over \$76,000.00 in debt and working with a business that only worked 8 months of the year. With [REDACTED] and the group at CT we were able to settle that debt for just under \$21,000.00. What a great relief!

[REDACTED] settled the last of our debt in January of 2013 and we are so relieved to start a new season debt free! As I indicated early [REDACTED] is a great asset to CT in that he is compassionate and caring. He was always there to answer questions or just listen when we couldn't come up with the funding in a particular month. We have nothing but the highest praise for Ct and [REDACTED]. I would highly recommend this program to any company, large or small trying to reduce debt while staying in business.

Thank you once again for setting [REDACTED] on the right course!

Sincerely,

[REDACTED]
