To Whom It May Concern:

Corporate Turnaround was a huge help to her business and saved us THOUSANDS of dollars in finance charges when we consolidate our debts. When the rates of our credit cards continually kept rising, we were only able to afford the minimum payments. At that rate it would have taken over 20 years to pay off the debts our business had accumulated over the 5-7 years.

Corporate Turnaround took all of the pressure off of the owners and did all the leg work. They negotiated and we ended up with a monthly payment that we could afford and 4 years later, all the debts are completely gone and our business is still thriving. The process was simple and with each monthly statement from Corporate Turnaround we could see our balances going down every month.

Thanks for all of your assistance throughout the process.

Sincerely,

Your company's results may vary. Every restructuring has a unique combination of issues and factors, including the length of participation in the program. All of these variables affect individual outcomes. There are no "typical" results. Settlement offers range from pennies on the dollar to payment in full. There is no guarantee of savings. There are no time limits for reaching settlements. Some creditors may settle after CT's first set of offers, and others may be resolved later on. Debts may increase until a resolution is reached.
