TESTIMONIAL

I am a physician that in 2010 opened a private solo practice. In retrospect that was a foolish decision between the advent of Obamacare and the national financial meltdown, but whatever. After a few years our growth leveled off and it became apparent we weren't going to survive. Banking support didn't exist, so I explored debt assistance companies and found Corporate Turnaround.

The business ultimately closed and I returned to corporate medicine. During the process CT literally saved my financial present and future. We successfully negotiated multiple payoffs with significant savings. When my home mortgage was threatened CT put me in contact with an excellent attorney locally that maneuvered through that with no permanent damage.

I am currently debt free with a rapidly recovering credit score.

I would strongly recommend CT for your consideration.

Your company's results may vary. Every restructuring has a unique combination of issues and factors, including the length of participation in the program. All of these variables affect individual outcomes. There are no "typical" results. Settlement offers range from pennies on the dollar to payment in full. There is no guarantee of savings. Until a debt is resolved, creditors may continue with their collection efforts, including phone calls and legal action. CT does not provide any legal services or legal advice.
