RE: Client Testimonial – Corporate Turnaround

To whom it may concern;

It is with ease and gratefulness that I write this testimonial for Corporate Turnaround and specifically; Adam [REDACTED]. Our hospitality company, including our real estate assets, was saved, in large part due to them.

Falling into debt is never easy. Having a start-up company's vision and dream waylaid by drought, fire, and other circumstances beyond our control, was devastating to us. By all accounts, we could have (and maybe should have) bankrupted in 2013. However, we chose, with large personal health and relationship sacrifices, to push through, stay afloat, pay our creditors, make good on our debts and make our company work.

In our company created "Turnaround Plan", created in 2013 and completed in 2015; engaging Corporate Turnaround was a key component. They saved us money, sure, but moreover, they did so with understanding, ensuring our creditors understood the situation and thus assisting with our cash flow, allowing us to stay in business.

Our successful transition from duress and almost certain failure; to giving us the ability to streamline our processes and buying time with creditors to meet the changing global markets and weather incidents, in light of 4 years of drought and unexpected capital costs was assisted by Corporate Turnaround.

They understand the needs of the business owner. In the end, when we completed our engagement with them, we had most of our stress and debt contained, if not paid. We were performing on our terms again. While we chose to sell our assets, after 7 years in business instead of refocusing on growth: it was our choice and on our terms.

Thank you, Adam and CT.
