

COMEBACK STORY OF THE MONTH

My personal experience with Corporate Turnaround

Our business was insolvent, and we had no idea on how to get out from under what seemed to be an insurmountable amount of debt. I began to search the internet and kept coming across this company called Corporate Turnaround. I found really good reviews online about them from all sorts of people across the land that they helped. All sorts of industries. They seemed like the best option, so I filled out one of their online information gathering sheets and sent it back to them.

Pretty much the next morning a gentleman by the name of Raffi [REDACTED] called me and started to explain how the CT program could help my business get out of debt. I threw just about every type of scenario at him and he calmly answered all my concerns and really impressed me with his professionalism. I felt comfortable with him and decided to move forward with CT.

I was still a bit worried after all the calls started in the beginning, but my Client Advocate Adam [REDACTED] was there to explain each and every step to me which made the early stages of the process much easier to handle. Adam advised me to focus on rebuilding our business and they would deal with all of the creditors and handle any issue that may pop up. They did everything that they said that they were going to do from start to finish.

We are currently celebrating our 20th year in business and doing well despite the volatility of the pandemic. I imagine that many business owners feel overwhelmed, stressed, and nervous trying to save their businesses. I recommend Corporate Turnaround and all the professionals on their team to assist you with your trouble debts. They gave me the peace of mind that I needed to strategize a business plan for success. Hopefully, they can do the same for you.

Sincerely,

Your company's results may vary. There are no time limits for reaching settlements. Some creditors may settle after CT's first set of offers and others may be resolved later on, with settlements ranging from pennies on a dollar to payment in full. Until a debt is resolved, creditors may continue with their collection efforts, including phone calls and legal action. CT does not provide any legal services. Each restructuring has a unique combination of factors, including the length of participation in the program. All of these variables affect individual outcomes. There are no "typical" results.
