

My Dear Friends at Corporate Turnaround-

I wanted to take a quick moment to thank the good people at Corporate Turnaround that helped me get my trucking company, **A. [Redacted] Trucking** out of debt and back on the road to profitability.

I started your Debt Restructuring Program back in December 2009 with close to 250k in mainly credit card and loan debt. 250k!!!! **Makes me queezy just saying that.** You guys somehow got these creditors to accept only \$88,806.86 in total repayment saving me over \$162,000 during the process. That still blows my mind.

How did you do this? I will tell you how.

A great system to begin with. Your budgeting software is state of the art. It has to be. How can anyone juggle multiple offers to all of my creditors at the same time and somehow get affordable payment plans in place? I don't think any one person with a calculator can do that. Your computer system must be something else!

2nd—Have a first class team working the accounts. From my saleswoman Yalonda [Redacted], to my Client Advocate and right hand man Adam [Redacted], and finally the unsung hero's that settled my debt—these guys are at the top of their games. Look at the results they got me! Unbelievable. CT's staff is top notch---no doubt.

Thank you so much Corporate Turnaround! You turned what I deemed an impossible situation into nothing short of a MIRACLE.

I can't thank you enough!

Your company's results may vary. Every restructuring has a unique combination of issues and factors, including the length of participation in the program. All of these variables affect individual outcomes. There are no "typical" results. There are no time limits for reaching settlements. Some creditors may settle after CT's first set of offers, and others may be resolved later on. Debts may increase until a resolution is reached. Settlement offers range from pennies on the dollar to payment in full. There is no guarantee of savings.
