Corporate Turnaround
95 North Route 17-Suite 310
Paramus, NJ 07652

Dear Adam- I'm not sure I thought I'd ever be in a position that I'd be asked to provide a testimonial for the services provided to us by you and the staff at Corporate Turnaround. At the onset, when things were so bleak, it didn't seem like things would ever get better.

As a small excavation company in the northeast part of the country, we are governed by many variables. In addition to the fickle weather and seasons, in 2007 came the start of very difficult times. Thinking we'd soldier through, we carried on, getting further and further into debt as major jobs which we planned and purchased for fell apart due to the economy in the area. We kept employees and subcontractors busy, knowing their livelihood depended on our resources, and eventually, we had nothing left to give or draw on.

While there was still work, the cash flow couldn't happen fast enough and even our supporters at the bank began to express concern, although God Bless them, they hung in there with us. The logical thing to have done would have been to file bankruptcy, but pride and the thought of letting down all those people who trusted us prevented taking that action.

By chance, I heard an advertisement referencing a news broadcast about Corporate Turnaround. Intrigued and desperate for a way to work through this, I researched the company. Oh, I can't describe the shame and panic I felt when I made that first call. Such wasted energy, my angst. My call was answered by a gentleman named Chris who could not have been more comforting and helpful. He listened, organized and established a contact for me immediately. Eventually, you were given the dubious honor of handling our account when the original representative left CT. Your help has been so appreciated, as was hers.

We've been in this business for over 35 years now. For a small company, who at one time had 15 employees, my husband has done remarkable and renowned work including building major town roads, recreational fields, and hundreds of commercial and residential site projects. We don't travel and we don't play much. We work...all the time. To be so tired, not only from the physical labor but the mental stress is debilitating. It challenges our ability to keep moving forward and makes us wonder why we bother. Corporate Turnaround provides the "can-do" outlook we needed to persevere.

We'll still have struggles. Excavation is an expensive business. But it's what we know and we'll keep plugging along...thanks to you and your team. Not only did you negotiate a way for us to fulfill our debt, but you encouraged our efforts respectfully and consistently.

Saying Thank You doesn't feel like enough. Blessings to you all....with our sincere appreciation.

Your company's results may vary. Every restructuring has a unique combination of issues and factors, including the length of participation in the program. All of these variables affect individual outcomes. There are no "typical" results. Consult with a licensed attorney regarding the applicability of bankruptcy.
